wake of Wichits Thursday and advanced prices yesterday. Here the market was strong to a shade higher. Tops the previous day but the average of the Heavy logs bringing \$10 yesterday was not as good as on Thursday. Activity was the noted feature of yesterday's market, the sale today, one car load at \$5.70. Good to prime steerms, \$5.095.000; poor to median several instances hogs were sold in the ears before they could be unloaded. When the market closed there was not a long in the sale pens except a small bunch containing stock pigs among them, to light for packers. The shippers went a smy well pleased with their sales. They knew that they were getting more clear money for their hogs than they would have brought on any other accessible legislate. There was indications of, a letting up in the urgent demand for hegs.
